

# The ARM Journal – *Within ARM's Reach*

## Letter from the Editor

My time for editing has come to an end, as two years have quickly passed!

Participating in this role has provided me an opportunity to contemplate perspectives, learn new information, and meet new people. I will always be grateful for this opportunity and connection.

This e-Journal was a 'long time in the making' and will continually prove to be a valuable leg in the ARM world. It provides a forum for colleagues to share ideas, interesting articles, and stay informed with new trends in a variety of professions.

Many thanks to Jack Young, our outgoing ARM Chair, for his dedication and ambition that inspired this e-Journal-- and who solicited my involvement. I know this journal will continue providing ASA members with current content applicable to appraisal reviewers, appraisal managers, and litigation support professionals around the world.

In fact, I am so confident in Jack's capabilities that I am handing him the editor reins for the next term! I know he will continue these efforts and expand the scope of this important work.

Please continue to invite colleagues and interested professionals to join us at the ARM table. Individuals from all professions and all nations are encouraged to contribute to this compilation of intellect—our ARM reach is far and we have elbow room for everyone!

*(--my ARM references have no end)*

Many thanks, again, for this opportunity!

-----  
All ASA ARM members are invited to contribute review related articles and content for this journal—join us and submit articles or announcements today!

**Appraisal Review—Litigation Support—Management Services—and more**

*The ARM Journal – Within ARM's Reach* is published quarterly and shares various appraisal review content. This venue provides news articles of noteworthy topics, education, advancements, course offerings and announcements that unite the appraisal review community and span all ASA disciplines, equally.

Interested in obtaining your ARM designation?

Have questions on how the ARM designation will make you a better appraiser?

Or perhaps you completed the POV courses years ago and you feel disconnected....

Call me and I will answer your questions and then you can decide if the Appraisal Review designation is right for you and your business model. ARM Principles of Valuation courses are offered several times a year, and in cities all over the country--including several webinar series and online classes!

If you only need to complete the review, application, fee part--ASA can help! Contact me for report help and connect with our ASA ARM accreditation specialist, Olivia Adams for more information on accrediting . . . *because ASA has open ARMs for YOU!*

**Consider a contribution and keep innovation and information . . .  
*Within ARM's Reach!***

Looking forward to seeing you soon, or online!

~Melanie
